

# Fixpack2-066 Install SOP

Synaptics ClickPad module : TM-P2991-003

# MS hotfix installation on Win8.1 OS

- Please install KB3095649 to disable certified blob check in PTP driver
- Download Path : <https://support.microsoft.com/en-us/kb/3095649>
- The Win8.1 package as below items for x64 and x86:
- Choose & Install correct Win8.1 package base on the Customer's platform

## Method 1: Windows Update

This update is provided as an **Optional** update on Windows Update. For more information on how to run Windows Update, see [How to get an update through Windows Update](#).

## Method 2: Microsoft Download Center

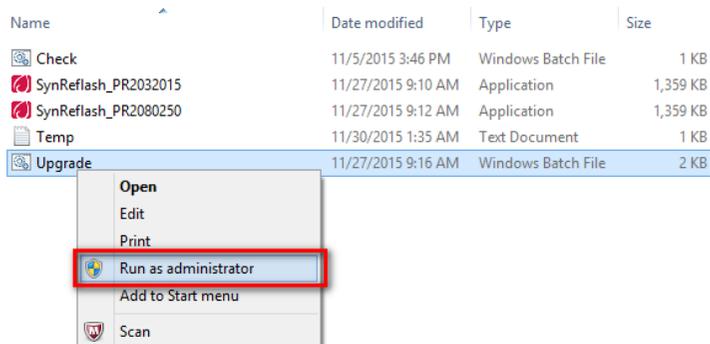

The following files are available for download from the Microsoft Download Center:

Operating system	Update
All supported x86-based versions of Windows 8.1	 <a href="#">Download the package now.</a>
All supported x64-based versions of Windows 8.1	 <a href="#">Download the package now.</a>
All supported x64-based versions of Windows Server 2012 R2	 <a href="#">Download the package now.</a>
All supported x86-based versions of Windows 7	 <a href="#">Download the package now.</a>
All supported x64-based versions of Windows 7	 <a href="#">Download the package now.</a>
All supported x64-based versions of Windows Server 2008 R2	 <a href="#">Download the package now.</a>
All supported IA-64-based versions of Windows Server 2008 R2	 <a href="#">Download the package now.</a>

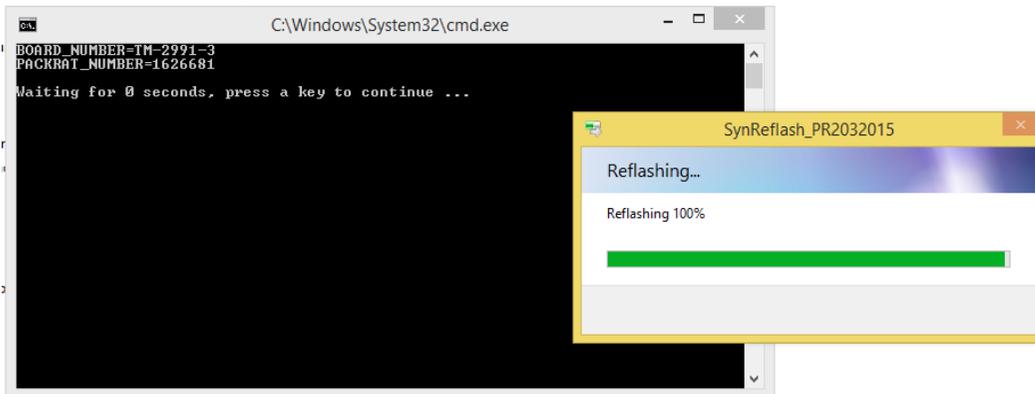

**Note** The update for Windows RT 8.1 can be downloaded only from Windows Update.

# Launch .bat with administrator

- Use correct package for FW reflash on x64 and x86 system.
- Run Upgrade.bat with “Run as administrator”

- FW will reflash to PR#2032015 as below. The tool will auto check if current platform needs to update.

Thanks
