## Getting started with Windows 8.1

There are three concepts you might want to keep in mind as you get used to using Windows 8.1

- 1. Start:** You can launch apps from the Start screen.
- 2. Tiles:** Live tiles are similar to thumbnails of the apps.
- 3. Charms:** Charms allow you to perform useful functions, such as sharing content, turning off your PC or changing settings.

Layout and devices may vary.

### How do I access the charms?

Move the cursor to the upper or lower right-hand corner of the screen to access the charms, or press **Windows + C**.

### How do I get to Start?

Press **Windows** on the keyboard; press **Windows + C** and click Start; or move the cursor to the lower right-hand corner of the screen and click Start.

### How do I jump between apps?

Move the cursor to the left-hand edge of the screen to view thumbnails of apps that are currently running.

You may also press **Windows + Tab** to open and scroll through the current apps.

### How do I turn off my computer?

Press **Windows + C**, click **Settings > Power** and select the action you'd like to take.

Information contained in this poster is for Windows platforms only. Other operating systems may not support all the features listed.

### Accessing a wireless network If you use wireless LAN

Press **Windows + W**, type "**Wireless**" and then click on **Wireless**.

**Note:** Click the toggle switch under **Wi-Fi** to enable the wireless connection. Click again to disable.

- To connect to a network, press **Windows + W**, type "Wireless" and then click on **Connect to a network**. Select your network and enter the password if required.

Otherwise, open Internet Explorer and follow the instructions. Please refer to your ISP or router documentation.

Layout and devices may vary.

### Acer Recovery Management

Acer Recovery Management allows you to create a backup on a USB drive, and to reinstall applications and drivers. Launch Acer Recovery Management by running the program from the Acer program group in Apps or by just typing "Recovery" while you are in Start. You can choose to restore the system from a factory default image or reinstall applications and drivers. Follow the onscreen instructions to complete the process.

- Type "**Recovery**" from **Start** and then click on **Acer Recovery Management**.

### User's Manual

For more on how your computer can help you to be more productive, please refer to the User's Manual. The User's Manual can be downloaded from the Acer support website by going to:
